

ANOTHER TOP INSURANCE COMPANY HAS PLACED ITS TRUST IN US.

With 21 years of experience serving more than 30 clients and their 400,000 beneficiaries both locally and abroad, you can say GlobeMed Lebanon is a leader in healthcare benefits management. So it was only natural that Zurich, a leading worldwide insurance company headquartered in Switzerland with 60,000 employees spread out across more than 170 countries, would join forces with us to administer their medical portfolio in Lebanon. After all, numbers don't lie, and trust is earned, not given.
